CWA: Dex One Media plans to outsource nearly 100 jobs to the Philippines, while the rest of the nation is focused on job creation to help the economy.

Denver, CO –Dex One is following through on its plans to eliminate 94 American jobs, 66 of which are in Colorado.

Today, CWA members from around the state are planning a protest at 2 Dex One locations in Denver. Dex One locations are at 9380 Station St, Lonetree, CO and 9501 E Panorama Cir, Englewood, CO 80111.

CWA District 7 Vice President Mary Taylor said, “Creating and sustaining good jobs is something that persons of all political persuasions and from all walks of life agree is in the best interest of all Americans. It is disappointing and disheartening that Dex One’s decision would send these jobs overseas at this time.”

CWA Bargaining Agent Jana Smith-Carr stated that “Dex One could easily create the same amount of cost savings if 40 of the executives would simply take a 10% wage reduction instead of a 100% cut for 94 workers.”

IBEW has produced a video describing the effects of this layoff on American Workers. That video can be seen at <http://www.youtube.com/watch?v=SzbWB36UG3Q>

CWA and other organizations in the progressive community, including national civil rights, environmental and labor groups, encourage all Dex One advertisers to let Dex One know that this is not acceptable behavior.

CWA represents 700,000 workers in communications, media, airlines, manufacturing, public service and health care.
