SUBJECT: Life Insurance Scam

We have received word from District 7 RMC President that one of our retiree's widow had someone attempt to scam her stating they were from CenturyLink. Below is the message from Judy:

I just received a phone call from a lady who lost her husband a month ago. In the obit it only said he worked at the phone company. The phone call she received said this lady was from CenturyLink and in order to send her the life insurance the retiree's wife had to pay the last 3 payments or installments. She told her to go to Office Max and get 3 cards and load \$1,000 on each one; then mail it to CenturyLink at a certain address and then she will receive the life insurance.

The retiree's wife was very vulnerable and started to do it but her daughter stopped her.

Just a heads up, share with your chapters that this is not the way CenturyLink will send out the life insurance.
